CAUTION

DISCLAIMER:

ALTHOUGH THIS PRODUCT HAS BEEN EXTENSIVELY TESTED UNDER A LARGE VARIETY OF CONDITIONS, FAILURE THEREOF MAY ENSUE AS A RESULT OF A WIDE RANGE OF REASONS. IF THIS IS SUSPECTED, KINDLY NOTIFY THE REGISTRATION HOLDER.

WARNINGS:

Handle with care. Store in a cool place and away from food and feedstuffs. Keep out of the reach of children, uninformed persons and animals. Maybe harmful to aquatic organisms.

PRECAUTIONS:

Avoid contact with skin. Wear suitable gloves during application. Wash with soap and water immediately after use or accidental skin contact. Do not eat, drink or smoke whilst applying or before washing hands and face. Apply only in positions where it will be completely inaccessible to children and animals. Do not apply bait to food or feedstuffs or surfaces on which food or feed is stored, prepared or eaten. Keep bait in original packaging in a cool, safe and dry place. Do not freeze. Destroy used container and do not re-use for any other purpose.

FIRST AID MEASURES:

General advice: The nature of this product, when contained in commercial packs, makes spillage unlikely. However, if significant amounts are spilled then the following advice is applicable. Move out of dangerous area. Place and transport victim in stable position (lying sideways). Remove contaminated clothing immediately and dispose of safely.

Skin contact: Wash off immediately with soap and plenty of water. If symptoms persist, call a physician.

Eye contact: In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention if irritation develops and persists.

Ingestion: Induce vomiting only, if: 1. patient is fully conscious, 2. medical aid is not readily available, 3. a significant amount (more than a mouthful) has been ingested and 4. time since ingestion is less than 1 hour. (Vomit should not get into the respiratory tract.) Rinse mouth. **Call a physician or poison control centre immediately.**

NOTES TO PHYSICIAN:

Treatment:

Treat symptomatically. Monitoring of respiratory and cardiac functions. Gastric lavage is not normally required. If a significant amount (more than a mouthful) has been ingested, administer activated charcoal and sodium sulphate.

DIRECTIONS FOR USE: USE ONLY AS DIRECTED.

Suitable for use in domestic, commercial and industrial premises; food handling, processing and storage establishments, e.g. restaurants, food retailers, warehouses, raw material stores, commercial kitchens and abattoirs; public buildings e.g. hospitals, hotels, municipal buildings, churches, halls, community centres and cinemas; outdoor treatments e.g. terraces, pavements, patios, entrance areas to sheds.

Apply out of reach and sight of children and animals.

Place bait near or on ant trails.

Survey the area to be treated to identify sites of ant infestation. An effect on the ant population can be expected within 10 days when the frequency of foragers will decline.

If not consumed, baiting points will remain effective for up to 12 weeks.

Avoid re-invasion by providing baiting points continuously.

INDOOR:

Apply **Maxforce® Quantum** directly as spots in identified target areas. Instruct residents to avoid cleaning or removing bait spots.

Where infestation is high, inspect the spots regularly and replenish bait if necessary.

Avoid application to excessively dusty, damp or greasy locations and areas which are subject to washing.

DO NOT apply to food preparation surfaces or areas that have recently been treated with other insecticides.

DO NOT contaminate the bait with other chemicals.

Apply 1 spot of 200 mg bait/m of ant trail.

OUTDOOR:

Inject bait directly into nest entrances. Repeat when necessary.

Apply 2 g bait per nest entrance.

For any product enquiry, contact Bayer Environmental Science - 011 921 5911 (Office hours: 9am – 5pm).

For poisoning emergencies only, Contact Griffon Poison Information Centre: 082 446 8946.
